

WORKS BY RÉKA HÁRSFALVI

About

"With a mischievous spirit and an insatiable love for aesthetics, Reka's passion for crafting immersive visual experiences shines through. Get ready to dive into a world where colors, textures, and meticulous attention to detail converge."

READ FULL ARTICLE

Reka is a visual storytelling production designer and art director. She began her career as a set decorator, where she developed a keen eye for storytelling through space. Today, as an emerging production designer, she brings narrative to life with a bold visual language that merges poetic intuition, technical skill, and a deep respect for the emotional power of space. For Reka, production design is a vast playground - one where she thrives on collaboration and exploration.
